

MESO SKIN PERFECTOR®

MESO SKIN PERFECTOR® is a revolutionary super hydration skin treatment giving the immediate visible effect of skin illumination and glow. It is a safe and non-invasive intensive skin treatment that improves facial tone, smooths out skin imperfections, freckles, small wrinkles and in some cases even melasma.

A concealer treatment, perfect for reducing skin discolouration on the face and for a homogeneous complexion, MESO SKIN PERFECTOR® treats facial blemishes, skin ageing, wrinkles, dull complexion, pores, bags and dark circles, scars, freckles, and spots.

MESO SKIN PERFECTOR® SHADE RANGE

LIGHT

for light skin tones

is recommended for people with very light skin tones seeking the reduction of freckles and skin discolouration caused by acne and ageing.

NATURAL

for rose skin tones

is a medium beige with rose undertones which is ideal for people with warmer skin tones. It is recommended for people seeking the reduction of freckles and skin discolouration caused by acne and ageing.

MEDIUM

for darker skin tones

is ideal for tanned skin or people with bronze skin tones, and we recommend it for those with medium to dark complexions. It is recommended for people seeking the reduction of freckles and skin discolouration caused by acne and ageing.

mesoskinline® MESO SKIN PERFECTOR® cocktails are designed for safe and intensive skin lightening, wrinkle improvement and anti-ageing.

MESO SKIN PERFECTOR® treatments can help reduce freckles and lighten the skin. It also helps with discolouration of the skin caused by acne and photoaging (age spots).

MESO SKIN PERFECTOR® gives not only a more even skin tone but also treats the skin from inside – it is a strong anti-age and antioxidant meso-cocktail for dehydrated skin with some signs of ageing and lack of elasticity.

Providing lasting results for up to 4 months, after continued treatment

Providing lasting results for up to 4 months, after continued treatment 4-5 times, it is suitable for ALL skin types!

MESO SKIN PERFECTOR® is a unique product based on a special formula of cosmetic pigments with the amount of CI 77891 within safe limits so there is no risk for overtreating the skin, which often leads to permanent skin discolouration (white, grey, yellow splotches) that we see on the market today.

MESO SKIN PERFECTOR® cocktails are an innovative complex of highly concentrated, biologically active ingredients developed in cooperation between mesoskinline® and Mesotech® which guarantees the highest quality and safe results.

MESO SKIN PERFECTOR® is:

- Tested for non-invasive mesotherapy
- Dermatologically tested
- Made in Europe

MAIN INGREDIENTS

Low molecular weight hyaluronic acid (5-10 kDA)

High in hydrophilic molecules that, thanks to its chemical structure, are able to bind numerous water molecules. Low molecular weight hyaluronic acid penetrates the deeper layers of the epidermis giving the skin greater tone, elasticity and intense hydration. It reduces the phenomena of superficial dryness and dehydration of the skin

Verbascum Thapsus extract

An innovative active vegetable ingredient with illuminating action; its action is based on bioluminescence: it is able to act on some potentially harmful UV radiations transforming them into a light source that radiates directly from the skin giving a brighter, younger, healthier and naturally radiant appearance.

Vitamins C - Vitamins E

Vitamins have antioxidants, anti-ageing and emollient properties, working in synergy with each other and improve their characteristics. They act to fight skin ageing by promoting cell renewal and fighting free radicals. In addition to anti-ageing, antioxidant and repairing functions, they have a lightening action, giving sun protection and nourishing and protecting the skin.
