**REOIL**   
SKIN NUTRITION

A great natural source of **vitamin C**, it is indispensable to ensure that the body remains in good health as it not only acts as an antioxidant protecting against free radicals, but also protects against infection, it helps to heal wounds and promotes a good cell growth. However, since ascorbic acid is a water soluble vitamin, it is not produced by the body and must be taken externally.

However, vitamin C is not the only vitamin containing in Reoil, and is certainly not the most important! The essential oils that make Reoil, contains a number of other vitamins, antioxidants and fatty acids that make it a truly amazing natural product.

Among the various nutrients that Reoil contains, in addition to vitamin C it is worth mentioning the following:

**vitamin A.** Also known as retinol, it can help combat oily skin, dehydrated skin from sun exposure, expression lines, wrinkles and skin irregularities of the skin in general.

#### **The linoleic acid**

It helps preserve the natural barrier of the cells, and is vital to the structure of cell membranes. It is a fatty acid omega-6.

The oleic acid. It is a fatty acid omega-9, and helps to make the skin soft as well as hydrated. In addition, it improves the general condition of the dermis.

#### **Lycopene**

It is an antioxidant and protects the skin from free radical damage, thus reducing the risk of premature aging.

#### **The beta-carotene**

It is a source of pro vitamin A, in addition to being a potent antioxidant. It helps to improve the appearance of skin damaged by the sun and can also help prevent the signs of aging.

**Ingredients:** Rosa Moschata Seed Oil, Argan Oil, Inca Inchi Wo Oil, Chamomilla Recutita Flower Extract, Vitamin E.

Andreea Ilinka, 30 yo. use Reoil

#### **Reoil and wrinkles**

The way it is mostly used Reoil is like skin moisturizer and anti-wrinkle. As we age, the sebaceous glands decrease in size, and produces more sebum to 25 years than at 50. This condition is exacerbated by possible climatic and environmental conditions such as drought and air pollution. Due to the lack of hydration and sebum, the skin begins to deteriorate. Reoil, with its high absorption power, it penetrates the skin almost instantly to restore the proper balance and hydration necessary.

Generally it is better to prevent aging, why experts recommend starting treatment with Reoil 20yo, especially for those who are often exposed to the sun for long periods of time. One application per day will be sufficient.

Reoil is very effective in stopping and improve the effects of the solar radiation on the skin. Significant changes can be seen after the third week of constant and continuous application. In cases of extreme photoaging, more generous application must be done before going to sleep well in the morning. For the complete disappearance of superficial wrinkles can also pass more than four months.

#### **Reoil for surgical and traumatic skin scars**

If used on surgical scars, Reoil must be applied after the sutures were removed and the wound is completely healed. After washing the area, apply the oil on dry skin with a gentle massage. The effects will be evident after 3 or 4 months, and the skin will recover its elasticity, in addition to significantly improve also the color of the scar itself.

As regards, however, the old scars from trauma or injury, will take longer to see the effects, and everything will depend upon the age of the scar itself, by its location and age of the person in question. Two or more abundant applications per day are recommended.

#### **Who can use Reoil? And how is it used?**

Reoil can be used by anyone at any age. Because he rebalancing skin, it can be used both by those who have dry skin and those who have oily skin, and in addition will not clog pores, allowing the skin to breathe. All skin types, therefore, may benefit dalReoil. Using ideal delReoil would estimate, since in this way can seriously reduce premature aging. If you already suffer from blemishes and wrinkles, Reoil can be applied daily to help contain the damage and to make it appear healthier skin.
